

Dragon Protection

The fairy tale protection of dragons skin isn't make believe any more. This Dragon is for real. Dragon Sleeve is made to withstand temperatures so unbelievable that it would melt your mind. Designing a hose that you can melt metal on? Developing a wire harness to suspend over a lava field? We'll leave it to you to dream up how to use heat protection like this. While you are dreaming of where to use Dragon Sleeve, Techflex will keep inventing more of the most innovative sleeving products you will need to keep up with your imagination.

- **Lightweight**
- **Flame Retardant**
- **Resists Sparks**
- **Max Heat Up To 1800°F**
- **Double Wall Construction**
- **Tear Resistant**

No More Welding Burns!

You hold flames and produce fire from your fingertips. But, as they say, when you play with fire you're gonna get burned — until now.

A weld at an extremely awkward angle or a quick adjustment under the hood no longer need to result in scorched flesh. Constructed from proprietary Dragon Fiber, Dragon Arm is personal protection from flame and heat. Welders, mechanics, and fabricators, you need not char your skin, arm yourself with Dragon Arm.
